Exhibit G

Significant Comcast FCC/PUC Complaints/Investigations

SIGNIFICANT COMCAST FCC/PUC COMPLAINTS/INVESTIGATIONS¹

- Closed Captioning Consent Decree: In 2010, Comcast voluntarily reported to the FCC a closed captioning pass-through issue concerning a particular manufacturer's set top box model. In April 2010, the FCC's Enforcement Bureau sent Comcast a Letter of Inquiry ("LOI") on this matter. In consideration for the termination of the investigation by the Enforcement Bureau, Comcast entered into a Consent Decree with the FCC. [Order and Consent Decree released on January 18, 2011, DA 11-6, File No. EB-10-TC-010].
- NBCU EAS NAL: On March 3, 2014, an NAL was released against Viacom, ESPN and NBCU. The NAL concerned violations of Section 11.45 (prohibiting misuse of EAS codes or attention signals) related to a movie trailer for *Olympus has Fallen* that included a simulated EAS attention signal. The total fines in the NAL amounted to 1.9 million – of which NBCU was fined \$530,000. [NAL released on March 3, 2014, FCC 14-22, File No. EB-IHD-13-00011381]
- Standalone Broadband Consent Decree: On March 31, 2011 the FCC initiated an investigation regarding the Standalone Broadband Internet Access Service Condition contained in the Comcast-NBCU Order. The FCC alleged that Comcast did not make information concerning its standalone broadband service tier, called Performance Starter, sufficiently available. On June 27, 2012, Comcast entered into a Consent Decree to terminate the above-referenced investigation. [Order and Consent Decree, DA 12-953, File No. EB-11-IH-0163].
- Bloomberg, L.P. v. Comcast Cable Communications, LLC: Complaint filed at the FCC alleged Comcast violated 'neighborhooding' provisions of the FCC's Order approving the Comcast/NBCU merger. The parties have settled this matter.
- Washington UTC ICA Filing – By Notice in UT-121918, dated December 2, 2012, Comcast Phone of Washington, LLC was advised that it committed a violation of a UTC rule requiring interconnection agreements be submitted to the UTC for approval within 30 days after they are signed. The UTC also served CenturyLink with such a notice. On January 2, 2013, Comcast remitted \$1,000 in payment of the penalty.

¹ This list includes cases in the last five years where there was either an adjudication of noncompliance or where the company entered into a settlement agreement to avoid a finding of non-compliance. It does not include individual consumer cases or pending cases.
